

Master Thesis Supervision:

For students who want to do theses with me, you are always welcome to contact me. Normally, you would be co-supervised by Dr. Özge Alaçam at the same time. Currently, I could offer two options.

- Cross-modal embedding, the fundamental to all cross-modal tasks.
- Cross-modal tasks, such as image-text retrieval, VQA, multi-modal summarization, etc.

Feel free to contact me if you have a strong interest in the above topics and programming ability. Please also cc Prof. Dr. Chris Biemann when sending emails.

Hiwi Positions/ Student Assistant Jobs:

Dr. Özge Alaçam and I are about to hire two to four student assistants involved in CML Project, Cross-modal learning. We plan to make an advertisement shortly. The contract will start in January 2021.

If you are interested in this position, you are very welcome to inquire about an interview before our advertisement. The position will remain open until headcounts are filled.

Requirement:

1. Basic experience in deep learning, computer vision, and natural language processing.
2. Strong implementation ability such as Python, Pytorch.
